

# Rucksack frame

**Makes it easier to carry heavy loads**

## Rucksack frame key features

- Makes it easier to carry the larger Nordic tipis
- Makes it easy to attach additional items/pack bags
- Creates a ventilating air space between the back and the load
- Also useful for fetching wood

Our rucksack frame has been developed primarily for Zirkonflex but also fits Zirkon 15 and Safir 15. It is also perfect for any heavy loads, such as logs.

The frame is made out of aluminium. It has an adjustable load-bearing system which distributes the weight. The padded hip belt gives good support and reduces strain together with comfortable, padded shoulder straps. Because the rucksack frame can be adjusted in so many ways, it can be adapted to any build of body. It has many clever features such as the quick-lock buckles, the top straps, the chest strap and the ventilating back mesh panel.

## Tentipi

- has its roots in Swedish Lapland – the homeland of the Sami káta
- stands for passion and expertise, especially when it comes to Nordic tipis
- has three decades of experience as the world-leading manufacturer of Nordic tipis
- has several patents and design rights for its original, ingenious design
- cares so deeply about its products that it only makes its Nordic tipis in its own fully-owned factories
- exposes every fifth tent to a full-scale rain test
- views every Nordic tipi as a unique product and gives it a personal ID to make it possible to track its components and specific design
- cares about previous customers by always striving to make new features also fit the older models of tents.

Rucksack frame	
	COMFORT
Material	Aluminium
Height (cm)	79
Width (cm)	40
Weight (kg)	2.4

## Why people choose Tentipi®

Because they think it is worthwhile investing extra money in order to get a superior product.

Because they believe that Tentipi's sole focus and passion for Nordic tipis give a better functioning and more reliable Nordic tipi.
